

Splunk4Rookies - Dashboard Studio

Hands-on Splunk Workshop

What is Splunk4Rookies - Dashboard Studio? Splunk4Rookies sessions are a great opportunity for you to discover the value of Splunk hands-on in a matter of hours. Attendees get an introduction to Splunk Dashboard Studio, along with hands-on experience creating a compelling Splunk dashboard from scratch.

Content: Participants will learn how to create searches, visualizations, and basic interactivity, applying design principles to build an effective data storytelling dashboard from scratch in Dashboard Studio.

Target Audience: Sessions are designed for Splunk beginners. Whether your organisation is just starting to consider using Splunk or you have just joined a team of Splunk users and need to understand the basics of dashboarding, Splunk4Rookies - Dashboard Studio is for you!

Prerequisites: It is recommended that participants either attend another Splunk4Rookies workshop first or have a small amount of previous Splunk experience.

Delivery Method: Splunk4Rookies events are currently delivered both face to face and virtually. Ask your Splunk account manager for more information!

Goals/Outcomes: By the end of this workshop, participants will have built a dashboard from scratch in Dashboard Studio!

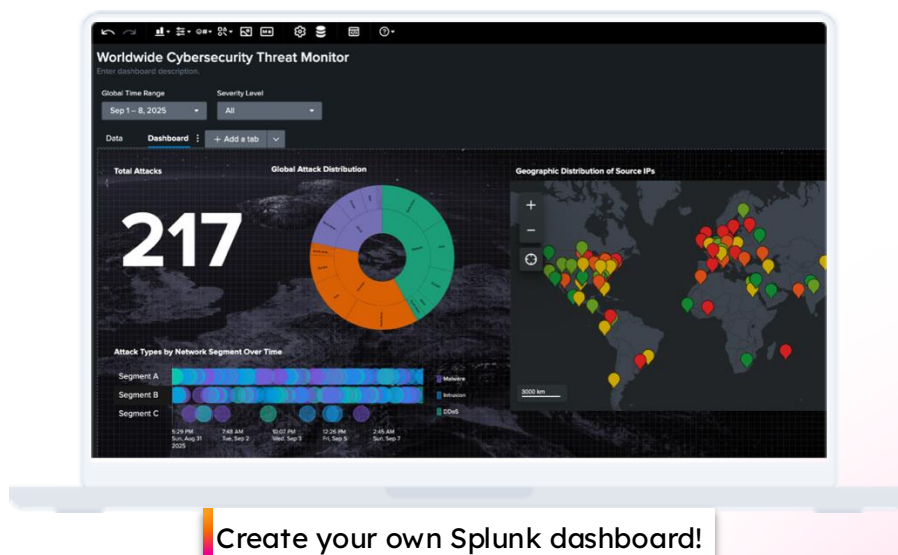

Duration: Workshops typically last around 2 hours

What Do I Need to Bring?

- A web browser with Internet access to connect to a Splunk server via port 443 (Test your connectivity here: <https://domain-test.splunk.show>.)
- A splunk.com account to login to the workshop environment - create an account [here](#).

Create your own Splunk dashboard!
